

New Energy Battery Cabinet Patent

Overview

A recently granted patent (Publication Number: US12002979B2) discloses an energy storage battery cabinet designed with a main body, first and second side doors, and inner side plates for efficient organization and storage of battery packs.

A recently granted patent (Publication Number: US12002979B2) discloses an energy storage battery cabinet designed with a main body, first and second side doors, and inner side plates for efficient organization and storage of battery packs.

The invention discloses a whole-package utilization energy storage cabinet for retired batteries of a new energy automobile, which comprises a box body structure, a drawer structure, a positioning structure and a fire-fighting structure, wherein the drawer structure is arranged in the box body.

A battery cabinet includes a cabinet body, multiple battery units, a temperature adjusting device, and a battery management device. The cabinet body includes an accommodation cavity. The multiple battery units are stacked in the accommodation cavity, and each of the battery units includes a heat.

WO2025241713 - ENERGY STORAGE CABINET Embodiments of the present application relate to the technical field of energy storage cabinets, and in particular to an energy storage cabinet, comprising battery packs and a heat exchange unit. The battery packs comprise liquid cooling plates. The heat.
