If you invest in renewable energy for your home such as solar, wind, geothermal, fuel cells or battery storage technology, you may qualify for an annual residential clean energy tax credit. The Residential Clean Energy Credit equals 30% of the costs of new, qualified clean energy property for your.

There may also be significant tax credits for installing solar at your home. Solar is one of the cleanest forms of renewable energy. By switching to solar, you reduce your carbon footprint and help New York fight climate change. Solar also reduces the presence of harmful air pollutants that may.

Installing solar panels brings a variety of benefits. Here's what you can expect when working with a NY-Sun contractor to install solar for your home. Get incentives to make your solar project more affordable. Get hands-on support completing your incentive paperwork by working with a NY-Sun.

How long a project takes often depends on the municipality, but we average

around 8-12 weeks from a signed contract to a finished installation. With Kasselman Solar, every project is assigned a dedicated Project Manager who will serve as the point-of-contact for any questions, comments, concerns.
