

Outdoor 5G base station within the 5th ring road in Poland

Overview

Are mobile operators building 5G networks in Poland?

Mobile operators in Poland have been testing 5G technology and have begun preparations for building 5G networks. While early pilot projects were mostly based on Huawei technology, in later initiatives the operators have focused on Ericsson and Nokia.

Where is 5G deployed in Poland?

Operators have prioritized 5G deployments in the richest and densest parts of Poland where fiber is heavily deployed, including the Masovian (Warsaw) and Pomeranian (Tri-City) provinces.

Is Poland ready for 5G?

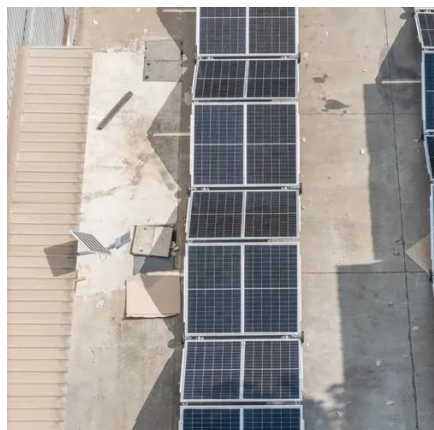

Poland's mobile market is today awash with deployment activity, as operators ramp up capital spending to the highest levels in years to equip thousands of mobile sites with mid-band spectrum, accelerate the sunset of 3G networks, and lay the groundwork for launching 5G standalone (SA) in the coming years.

When will SA 5G be available in Poland?

Deployment of SA 5G networks has still not occurred in Poland and is not expected before 2026, according to the latest announcements made by the President of Orange. For now, the operator is focusing on expanding coverage by stations that share LTE and 5G. 2.
