PARIS — A historic energy project is now live in Kenosha County, and it's charging up Wisconsin's future. We Energies has officially launched the Paris Solar-Battery Park, the first large-scale energy storage project in Wisconsin history. The site, located in the Town of Paris, combines a massive.

We Energies says the storage system can provide enough energy to power more than 130K homes for 4 hours. The state's first large utility-scale battery storage project came online in southeastern Wisconsin in June 2025 at the Paris Solar-Battery Park in Kenosha County. Photo courtesy of We Energies.

Wisconsin's first large-scale energy storage project — the Paris Solar-Battery Park in Kenosha County — is now online and powering the grid. The 110-megawatt (MW) battery portion of the Paris Solar-Battery Park went online this month, while the 200-MW solar portion of the project went into service.

Local news coverage, weather forecasts, and developing stories impacting the Milwaukee community. The Paris Solar-Battery Park. (Courtesy of We Energies) WISCONSIN — The state's first large-scale energy storage project is now up and running. We Energies announced on Tuesday that the Paris.

Wisconsin's first large-scale energy storage project—the Paris Solar-Battery Park in Kenosha County—is now serving Madison Gas and Electric customers. The 110-megawatt battery portion of the Paris Solar-Battery Park came online in June 2025. The 200-MW solar portion of the project went into service.

The first large-scale battery energy storage system (BESS) in Wisconsin, a 110MW

facility known as the Paris Solar-Battery Park, is now operational. This system is paired with 200MW of solar power that commenced service in December 2024. Utility company We Energies holds the majority stake in the.
