

# Poland energy storage project

## Overview

---

This ambitious program is a cornerstone of Poland's broader strategy to decarbonize its energy system and integrate a growing share of renewables. The 172 selected projects will deliver a staggering 14.5 GWh of total energy capacity and approximately 3.9 GW of power output.

This ambitious program is a cornerstone of Poland's broader strategy to decarbonize its energy system and integrate a growing share of renewables. The 172 selected projects will deliver a staggering 14.5 GWh of total energy capacity and approximately 3.9 GW of power output.

The Ministry of the Environment in Poland has shortlisted projects for an energy storage capex support programme totalling PLN4.15 billion (c.€1 billion or US\$1.17 billion), with 183 eligible to progress to the next round. The scheme, approved by the EU in March, is being administered by the.

Poland's state environmental fund says developers sought PLN 28 billion (\$7.7 billion) for 20 GW and 122 GWh of storage projects – nearly seven times the program's budget, with 183 projects eligible for funding. From ESS News Poland's National Fund for Environmental Protection and Water Management.

Poland's eco-fund has pre-qualified 183 energy storage projects in its latest competitive round with a budget of PLN 4.15 billion (USD 1.14bn/EUR 981m) from the Modernisation Fund. Battery energy storage systems (BESS) License: CC0 1.0 Universal (CC0 1.0) Public Domain Dedication. The projects with.

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion). The program is co-financed by the European Union's Modernization Fund and the Recovery and Resilience.

In a landmark move for its energy sector, Poland has officially allocated PLN 4.15 billion (\$1.15 billion) in public support for the development of large-scale energy storage projects. This decisive investment underscores the country's commitment to modernizing its energy infrastructure and.

Poland has just rolled out one of Europe's most ambitious energy storage

programmes - a €980 million initiative that's set to transform the country's grid infrastructure. The Polish Ministry of Climate and Environment has finalised this landmark subsidy scheme, targeting over 5 GWh of new storage. What is Poland's energy storage subsidy?

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

What is Poland doing about energy storage?

Poland has just rolled out one of Europe's most ambitious energy storage programmes - a €980 million initiative that's set to transform the country's grid infrastructure. The Polish Ministry of Climate and Environment has finalised this landmark subsidy scheme, targeting over 5 GWh of new storage capacity by 2028.

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion).

What is Poland's new energy storage scheme?

The scheme has been brewing since 2024, with the final regulation published in the Journal of Laws of the Republic of Poland in March this year. It received European Commission approval, which authorised state aid of €1.2 billion in state aid to support at least 5.4 GWh of new electricity storage facilities.
