You know, Port Vila's been wrestling with energy instability for years. Over 40% of Vanuatu's population still relies on diesel generators [3], while cyclones like 2024's Tropical Cyclone Lola regularly knock out power for weeks. But here's the kicker: Solar generation capacity actually doubled.

We provide operation and maintenance services (O&M) for solar photovoltaic

plants. These services are provided by a team of world-class operators with support. The AES Energy Storage platform provides a high-speed response to deliver energy to your system the moment it is required. This platform.
