While there are over a dozen different-sized containers, 20-foot (TEU) and 40-foot (FEU) containers are the most frequently used. What fits in a TEU will determine the cost of shipping. The cost also depends on the type of goods transported and how efficiently these can be packed and loaded into.

Collapsible bulk containers, also known as knockdown containers or knockdown bins, are space saving containers perfectly engineered for both durability and longevity. These foldable containers are made of high-density polyethylene (HDPE), a durable material that will protect your product throughout.

COLLAPSECON is the next evolution of shipping containers – a fully automated collapsible container that will improve operational efficiencies, deliver economic

savings and reduce environmental impact across the supply chain, all without requiring a fundamental change to the industry or global.
