Operational since Q4 2024, this \$1.2 billion project stores enough electricity to power 800,000 homes daily, achieving an impressive 80% round-trip efficiency [7]. But wait, why should you care?

Let's break it down: Global renewable energy curtailment reached 158 TWh in 2024 (that's enough to power.

During the “Energy Sector Reform” Forum organized by the Dominican Association of the Electric Industry (ADIE) and the Technological Institute of Santo Domingo (INTEC), Edward Veras, executive director of the National Energy Commission (CNE), emphasized the Dominican Republic’s progress in energy.

Winning POWER’s highest honor is Estrella del Mar III, a first-of-its-kind floating combined cycle gas turbine power barge that fulfills a remarkable assortment of modern power system demands. Nearly fully built in Singapore by an international team that delicately integrated shipbuilding and power.
