

# Secure Project Energy Storage

## Overview

---

The New York project includes the deployment of a 5MW / 20MWh standalone energy storage system, designed to support grid reliability, peak-shaving, and market participation under New York's Value of Distributed Energy Resources (VDER) program and ancillary grid services.

The New York project includes the deployment of a 5MW / 20MWh standalone energy storage system, designed to support grid reliability, peak-shaving, and market participation under New York's Value of Distributed Energy Resources (VDER) program and ancillary grid services.

Energy storage has a pivotal role in delivering reliable and affordable power to New Yorkers as we increasingly switch to renewable energy sources and electrify our buildings and transportation systems. Integrating storage in the electric grid, especially in areas with high energy demand, will.

QUEENS, NY —Today, New York City Economic Development Corporation (NYCEDC) and the New York City Industrial Development Agency (NYCIDA) announced the advancement of a key commitment in New York City's Green Economy Action Plan to develop a clean and renewable energy system. NYCIDA closed its.

IRVINE, CA., November 25, 2025 – Clean Energy Technologies, Inc. (Nasdaq: CETY) (“CETY” or the “Company”), a clean energy technology company delivering scalable solutions in power generation, storage, waste-to-energy, and heat-to-power, today announced that it has secured a \$10 million Battery.

Developers and clean energy investors now have a major opportunity to secure long-term revenue through New York State's first bulk energy storage solicitation. Announced by Governor Kathy Hochul on July 28, 2025, this Request for Proposals (RFP) invites participants to compete for 15- to 25-year.

Governor Kathy Hochul today announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk energy storage as part of New York's 6 GW Energy Storage Roadmap. Adding bulk energy storage to New York's grid will lower costs.

## Secure Project Energy Storage

### Battery Storage -- ACE NY

There are 5,000+ existing battery energy storage projects in New York, storing 340.70 MW of clean energy that has bolstered grid resiliency for local communities.
