

# Serbia Lightweight solar Module Project Construction

## Overview

---

Minister of Mining and Energy Dubravka Đedović Handanović and energy company Elektroprivreda Srbije (EPS) General Manager Dušan Živković signed a contract today with the consortium of Hyundai Engineering and UGT Renewables for the project to build self-balanced solar power.

Minister of Mining and Energy Dubravka Đedović Handanović and energy company Elektroprivreda Srbije (EPS) General Manager Dušan Živković signed a contract today with the consortium of Hyundai Engineering and UGT Renewables for the project to build self-balanced solar power.

Minister of Mining and Energy Dubravka Đedović Handanović and energy company Elektroprivreda Srbije (EPS) General Manager Dušan Živković signed a contract today with the consortium of Hyundai Engineering and UGT Renewables for the project to build self-balanced solar power plants in Serbia. The.

The Government of Serbia has signed an agreement with the Hyundai Engineering-UGT Renewables consortium on building solar power plants with a total connection capacity of 1,000 MW (1,200 MW in nameplate capacity), along with battery systems for electricity storage of up to 200 MW/400 MWh. The.

Serbia is taking a significant step toward a sustainable energy future, signing a strategic partnership with South Korea's Hyundai Engineering to develop a solar power project generating an impressive one gigawatt of electricity. Formalized by Serbian President Aleksandar Vučić and Hyundai.

At the beginning of 2023, the currently largest solar power plant in Serbia , DeLasol in Lapovo, started operating. With 9.9 megawatts of connected power, it consists of almost 18,000 bifacial panels. The investment value amounts to nine million euros. In the middle of 2023, the construction of the.

Now there are plans in place for UGT Renewables and Hyundai Engineering to provide a series of self-balanced utility-scale solar projects bringing reliable, renewable energy to every corner of Serbia. Delivering the utmost flexibility to the Serbian government, the Large-Scale Solar and Battery.

The preparation of documentation is going as planned and the first works on the

project in Serbia for solar power plants of 1 GW in total and batteries is expected by early 2026, Minister of Mining and Energy Dubravka Đedović Handanović said. Minister of Mining and Energy of Serbia Dubravka Đedović.
