New York/Zurich, September 23, 2024 – At Climate Week NYC, Hitachi Energy announced plans to invest an additional \$155 million USD to expand its manufacturing capacity in North America. This includes the construction of a new distribution transformer factory in Reynosa, Mexico, and expansions to.

Distributor of reclosers and circuit breakers for telecommunications, renewable energy, military, oil, and gas industries. Single or three-phase load break switches are provided. Some products are available in 15.5 to 72.5 kV, 1,200 to 2,000 A, -40 to 65 degrees F operating temperature, and 120 or.

Hitachi Energy announced plans on Monday to invest \$155 million to expand its North America manufacturing capacity across three plants. The plans include \$25 million to expand Hitachi's Virginia transformer factory, \$60 million to expand its Pennsylvania high-voltage switchgear and breakers factory.

ERMCO manufactures a complete product range of small kVA single phase circuit breakers for use in oil filled distribution transformers. Products include the thermal trip and magnetic trip breakers. Breakers may be ordered separately or as a breaker on a bracket. The circuit breaker is typically.

Hitachi Energy intends to invest an additional \$155 million into its manufacturing operations in North America. This strategic initiative encompasses the establishment of a new distribution transformer factory in Reynosa, Mexico, as well as the expansion of current facilities located in South.

The initiative includes a new distribution transformer factory and expansions of existing facilities. The facility is expected to generate 350 jobs. Credit: Hitachi Energy Ltd. Hitachi Energy plans to inject an additional \$155m into its North

American manufacturing operations. The strategic move.
