Take Sunergy Solutions, a Texas-based franchise that installed 500 residential energy storage systems in 2023. Their secret?

They partnered with local solar installers and used TikTok demos to explain "how batteries keep your Netflix running during blackouts." Result?

A 300% ROI in 18 months.

The global energy storage battery market is projected to hit \$546 billion by 2035 [9], and franchises in this sector are becoming the modern equivalent of striking oil (but greener and far less messy). Think of it like a LEGO factory for adults - but instead of plastic bricks, you're assembling.

Remember when Elon Musk promised to "battery the world"?

His franchise partners installed a 300MW/450MWh system in California that's smoother than a Cybertruck's angles (okay, maybe smoother). A Midwest medical center paired solar panels with franchise-provided storage, surviving a 72-hour blackout.

There is franchise availability in all 50 states and Puerto Rico, so there's plenty of opportunity for you to establish your own tech franchise store (or stores!), and grow right along with us. How many people do you need for a battery store franchise?

Ideal territories require a population of at.
