

# Solar Energy Storage 600620

## Solar Energy Storage 600620

### Energy Storage Program

New York State aims to reach 1,500 MW of energy storage by 2025 and 6,000 MW by 2030. Energy storage is essential for creating a cleaner, more efficient, and resilient electric grid.

How to Participate  
Current Project Locator  
Through the Clean Energy Program, DCAS works to expand distributed energy resources, including solar PV and energy storage installations across the City's portfolio of properties. The City has established a goal of installing 100 Megawatts (MW) of solar photovoltaic (PV) on City-owned buildings by the end of 2030, an...
