LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar.

The TCOM Communication Solar Tower is the ultimate solution for industries and organizations requiring reliable, off-grid communication capabilities. Engineered with Cleanlight's cutting-edge solar technology, this tower ensures uninterrupted connectivity in the most remote and demanding.

Yangzhou CIMC New Energy Equipment Co., Ltd. is a prominent player in the solar container market, specializing in advanced containerized solar power and hybrid energy solutions. Leveraging the strong industrial foundation of the CIMC Group, the company offers robust and scalable modular solar.

As energy challenges grow, our solar container solution was created to meet the need. It provides clean, efficient power wherever you need it and can also generate profit. The container is equipped with foldable high-efficiency solar panels, holding 168-336 panels that deliver 50-168 kWp of power.

Shipping container solar systems are transforming the way remote projects are powered. These innovative setups offer a sustainable, cost-effective solution for locations without access to traditional power grids. Whether you're managing a construction site, a mining operation, or an emergency.
