

# Solar curtain wall installation in the United Arab Emirates

## Overview

---

In May 2025, Emirates Extrusion Factory (EEF) – a Dubai Investments company – and UCS Green Solutions announced a landmark partnership to create the UAE’s first zero-waste green curtain wall system.

In May 2025, Emirates Extrusion Factory (EEF) – a Dubai Investments company – and UCS Green Solutions announced a landmark partnership to create the UAE’s first zero-waste green curtain wall system.

A combination of several windows joined to serve as a covering of the building. uPVC curtain wall will enable the building to benefit from daylighting & reduce the solar heat gain at the same time. Curtain walls are an integral part of modern architecture. These utility pieces are becoming a.

In May 2025, Emirates Extrusion Factory (EEF) – a Dubai Investments company – and UCS Green Solutions announced a landmark partnership to create the UAE’s first zero-waste green curtain wall system. The exclusive agreement, signed under the “Make It in the Emirates” initiative, empowers EEF to.

The primary objective of this market assessment is to evaluate the potential for new entrants within the UAE ventilated curtain wall sector, a segment of the broader building façade and cladding industry. The UAE's rapid urbanization, driven by ongoing infrastructural developments and a booming.

Curtain walling refers to a non-structural cladding system made from fabricated aluminum, commonly used on the outer walls of tall multi-storey buildings. This lightweight material offers ease of installation and can be customized to be glazed, opaque, or equipped with infill panels. The aluminum.

Al Abbar Group: Founded in 1967, Al Abbar Group has emerged as a global leader in the design, engineering, fabrication, and installation of curtain wall systems.
