Volza's Big Data technology scans over 2 billion import shipment records to identify new Buyers, suppliers, emerging markets, profitable import opportunities, and promising products. According to Volza's United States Import data, United States imported 757 shipments of Solar Glass during Nov 2023.

We have identified 1,193 solar glass importers (scroll down to see the list) by analysing hundreds of millions of shipping records. These are genuine solar glass importers who have imported solar glass and are likely to be a valuable customer and partner. All the solar glass importers accounted.

Solar module prices and overall solar project costs are set to shoot up following the recent import duties on solar glass. Recently, the Centre imposed anti-dumping duty in the range of \$658/MT to \$664/MT for imports from China and \$570/MT to \$664/MT from Vietnam, Mercom reported. The news portal.

Analyze Solar Glass export import data and locate key markets, reliable suppliers, and active buyers by utilizing Eximpedia's data-centric platform. Whether you're a supplier looking for high-demand markets or a buyer sourcing Solar Glass from reliable exporters, Eximpedia's data-driven approach.

New Delhi: The imposition of anti-dumping duty on solar glass last month has led to a rise in solar photovoltaic (PV) module prices by 10-12%, raising concerns over project cost escalations and potential delays, industry participants said. The solar glass duty, largely aimed at supplies from China.

In 2024, the U.S. imported 54.3 GW of solar panels, mostly from Southeast Asia.

Learn why the U.S. still relies on imports, key trade policies, and future trends. The U.S. saw record-high solar imports in 2024, with a total of 54.3 gigawatts (GW) of finished modules arriving in the country. This. How much is anti-dumping duty on solar glass?

In a bid to reduce imports and boost domestic manufacturing, the union ministry of finance last month imposed a provisional anti-dumping duty on textured, tempered, coated and uncoated solar glass imports from China in the range of \$673-677 per tonne and \$565 per tonne for imports from Vietnam.

Who are the major solar importers?

Major importers during this period included affiliates of China-based Trina Solar Co. Ltd. and Arizona's First Solar Inc. Amid this surge, the U.S. solar industry is witnessing a wave of new domestic factories, spurred by Biden's Inflation Reduction Act of 2022, which are now competing for a share of the growing market.

Should solar imports be a long-term goal?

While increasing U.S.-based solar manufacturing is a long-term goal, it's clear that imports will remain a necessity for the foreseeable future. The industry must strike a balance between encouraging domestic growth and ensuring that solar deployment goals are met without bottlenecks.

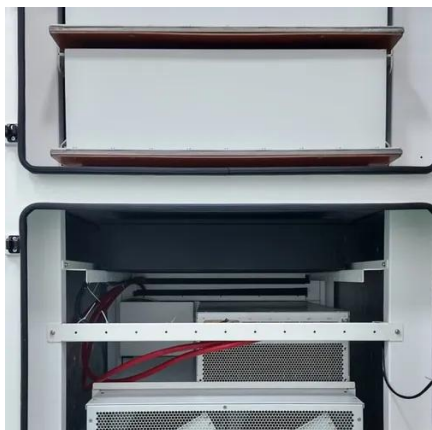

Where do US solar imports come from?

The vast majority of 2024 solar imports in the U.S. came from four key Southeast Asian nations: These four countries have become the backbone of America's solar supply chain, largely due to their manufacturing ties with Chinese solar giants.
