A decade ago, someone knocking on your door to sell you solar panels would have been selling you solar panels. Now, they are probably selling you a financial product—likely a lease or a loan. Mary Ann Jones, 83, didn't realize this had happened to her until she received a call last year from.

The solar industry experienced exponential growth over the last decade as costs fell and favorable policies helped drive mass adoption. However, 2024 has brought immense challenges, with higher interest rates, tighter financing, and adverse policy shifts in key states contributing to over 100 solar.
