We offer a range of high quality products suited to Vanuatu's harsh environment, from the best suppliers on.

Port Vila, the capital city of the island state of Vanuatu, has a population of 44,000, of which only 27% have access to electricity. While the island already has some local renewable generation capacity – including PV, wind, and hydro – the majority of energy demand is still met by diesel.

Port Vila, Shefa Province, Vanuatu, located at latitude -17.7309 and longitude 168.3159, offers a promising environment for solar energy generation throughout the year. This tropical location benefits from consistent sunlight, with seasonal variations primarily characterized by wet and dry periods.

ENF Solar is a definitive directory of solar companies and products. Information is checked, categorised and connected. Company profile for installer PCS Limited - showing the company's contact details and types of installation undertaken.

Port Vila's tropical climate offers over 2,500 hours of sunlight annually, making it ideal for solar energy adoption. With rising electricity costs and environmental concerns, residents and businesses are turning to photovoltaic systems to: "Solar power isn't just an alternative here—it's becoming.
