It has been quite some months of planning, finally, the Ministry of Energy and Water Resources in Somalia has kicked off a tender for the design, supply, installation, testing and commissioning of standalone battery storage power plants. The solar storage system will serve 46 education facilities.

This Horn of Africa nation is making serious moves in renewable energy. With blistering sunshine 300+ days a year, Somalia's betting big on solar-plus-storage projects to rebuild its power sector. And here's the kicker: the World Bank's pouring millions into making it happen [1] [3]. 2025's already.
