

# South Asia develops solar energy storage project

## Overview

---

A landmark hybrid tender won in 2024 and advancing in 2025, this project combines solar generation with advanced lithium-ion storage. It enables round-the-clock power supply, addressing intermittency issues in Rajasthan's arid regions.

A landmark hybrid tender won in 2024 and advancing in 2025, this project combines solar generation with advanced lithium-ion storage. It enables round-the-clock power supply, addressing intermittency issues in Rajasthan's arid regions.

10 July 2025 - Trina Storage, the energy storage division of global solar leader Trinasolar, has reached a significant milestone with more than 2.4 GWh of utility-scale storage capacity under execution across the Asia-Pacific region (excluding China) as of July 2025. Spanning Australia, Japan.

Pentagreen Capital (“ Pentagreen ”) and British International Investment (“ BII ”) today announced a joint financing of US\$80 million to accelerate the rollout of utility-scale solar and battery storage projects across South-East Asia in collaboration with leading international renewable energy.

Pentagreen Capital (“Pentagreen”) and British International Investment (“BII”) has announced a joint financing of US\$80 million to accelerate the rollout of utility-scale solar and battery storage projects across Southeast Asia in collaboration with leading international renewable energy.

India's largest utility-scale energy storage project, developed by IndiGrid in partnership with IFC, integrates solar power to enhance grid reliability. This standalone BESS, operational in 2025, mitigates peak demand fluctuations and supports renewable integration, reducing curtailment by up to.

Singapore has advanced plans to import 1.4GW of solar and energy storage capacity from Indonesia in the last year. Image: Sunseap. Singapore could sit at the “core” of new regional electricity grids in Southeast Asia, with proposed interconnections to neighbouring countries set to bring 25GW of new.

Pentagreen Capital and British International Investment (BII) have announced a joint financing of US\$80 million to accelerate utility-scale solar and battery storage projects across Southeast Asia, in collaboration with renewable energy developer

ib vogt Singapore. This US\$80 million Development.
