

# Sri Lanka Power Base Station

## Overview

---

Data and information about power plants in Sri Lanka plotted on an interactive map.

Data and information about power plants in Sri Lanka plotted on an interactive map.

Sri Lanka 's electricity demand is currently met by nine thermal power stations, fifteen large hydroelectric power stations, and fifteen wind farms, with a smaller share from small hydro facilities and other renewables such as solar. Most hydroelectric and thermal/ fossil fuel -based power stations.

visit [lvpp.ceb.lk](http://lvpp.ceb.lk) and make a request to visit the power station through the website. Contact Person - Deputy General Manager (Samanala Complex), 153/8 , New Town , Rathnapura Telephone / Fax - 0452225002-3 / 0452225005 Contact Person - Deputy General Manager (Mahaweli Complex),40/20, Ampitiya Road.

The power stations in Sri Lanka encompass a range of hydroelectric, thermal, wind, solar, and biomass facilities that collectively supply the national grid, with hydroelectric plants forming the backbone due to the country's topography and river systems, while thermal stations provide baseload.

Sri Lanka has 47 utility-scale power plants in operation, with a total capacity of 3717.1 MW. This data is a derivative set of data gathered by source mentioned below. Global Energy Observatory/Google/KTH Royal Institute of Technology in Stockholm/Enipedia/World Resources Institute/database.earth.

Sri Lanka 's electricity demand is currently met by nine thermal power station s, fifteen large hydroelectric power stations, and fifteen wind farm s, with a smaller share from small hydro facilities and other renewables such as solar. Most hydroelectric and thermal/ fossil fuel -based power.

Satellite map of List of power stations in Sri Lanka, Sri Lanka. Latitude: 8.0087 Longitude: 79.7197 The following page lists most power stations in Sri Lanka that are connected to the central grid; owned by the Government, Ceylon Electricity Board, or other local public and private sector.
