What are sinetech supercapacitors?

Sinetech's supercapacitors are designed to maximize efficiency, offering a dependable solution for your power storage requirements. Supercapacitors are renowned for their rapid energy storage and release capabilities and they are a popular solar energy storage system.

What are supercapacitors & how do they work?

Capacitors are a form of energy storage that uses static electricity to store power instead of chemicals like batteries do. Supercapacitors can do this with extreme efficiency. Our supercapacitors are equipped with two metal plates that act as conductors and accumulate electrical charges, storing energy.

What is the difference between a supercapacitor and a battery storage system?

Battery storage, also known as battery energy storage systems (BESS) are systems designed to store renewable energy like solar- or wind-generated energy. Supercapacitors fall into a different category (supercapacitor energy storage systems or SESS), though they serve the same purpose.
