

Support for Mixed Customers Using Foldable Containers at Port Terminals

Overview

Do foldable containers affect port operation?

The opinion of the survey respondents on the impact of foldable containers on port operation suggests that, despite the benefits accrued to ports from additional terminal capacity and time saved by not having to move empty containers, there may be issues in sorting foldable containers.

Can foldable containers improve logistics management?

Capacity Improving Logistics Management Using Foldable/Collapsible Containers: A Case Study G 179 G constraints in ports for storing and repositioning empty standard containers are major concerns in the logistics and port industry. As an alternative, foldable containers have been introduced into the market.

Are foldable containers a good investment?

Foldable containers are considered to be a good investment in the logistics industry. One of survey respondents suggested that 'the foldable container can reduce space constraints on seaport and logistics companies and reduce container handling time in port terminals'.

Are foldable containers a viable solution to repositioning empty containers?

The industry perceives that foldable containers can generate numerous benefits such as reductions in capacity constraints at loading centres and storage, reduction in port infrastructure expansion costs and large benefits to the shipping industry by way of providing a direct solution to the problem of repositioning empty containers.

Compact Container Systems , Cost-Saving Collapsible Cargo

At container terminals, SeaFold containers serve as a strategic solution for alleviating both current and anticipated port congestion. Their compact nature when collapsed liberates valuable ...

'Foldable' container could transform global box logistics

A five-in-one foldable container design could boost efficiency and transform the carriage of empties, claims Florida-based Compact Container Systems (CCS).

ANALYZING THE EFFECTS OF USING BOTH FOLDABLE ...

We analyze the effects of foldable containers using a newly developed multi-port and multi-period container planning model. The proposed model is a large-scale optimization problem, for ...

Effects of Foldable Containers in Various Circumstances in ...

In this study, we examine three key situations: shutdowns, demand fluctuations, and fleet size fluctuations. Furthermore, we developed an integer programming model to analyze ...
