At SCS Australia, we design and deliver containerised energy storage systems that provide safe, efficient, and scalable power solutions for industries, businesses, and communities. Housed in durable shipping containers, our systems are engineered to meet the growing demand for renewable.

At Modbox, we design and build shipping container solar solutions to securely house your solar panels, batteries, inverters, and other equipment. Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions.

Get your worksite up and running fast with Site Hub, a 40ft modular space designed for rapid deployment. Enjoy full operational capacity even in remote locations and emergency situations, with built-in solar power, potable water, and sewerage facilities for uninterrupted site operations. Site Hub.

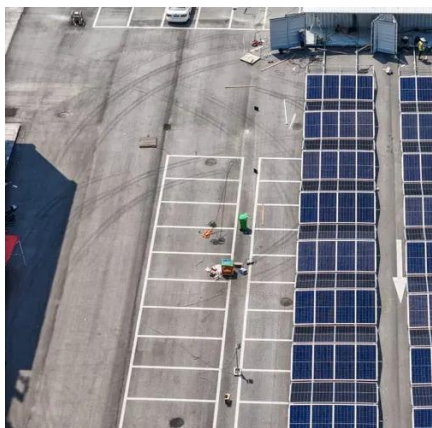

Explore our wide range of award-winning products from Power Solutions, Mini Dumpers to Surface Cleaners and experience the Makinex difference. For personalised assistance contact our team at sales@makinex.com.au or 1300 795 953. Deployable Solar Array (Container Top) Maximise your container roof.

We design and build shipping containers featuring integrated solar systems that can be used to provide microgrid energy solutions. The solar array is mounted directly onto the container, and can provide both off-grid and grid-tied functionality, with all necessary equipment to ensure safe and
