

# Taipei New Energy Storage Company

## Overview

---

Which energy storage technology providers are active in Taiwan?

Several energy storage technology providers, such as Fluence, flow battery manufacturer Invinity and NHOA, are active in the market. It is worth noting that the Taiwan energy storage market is set to become a focus for Billion Electric with plans to develop 1.2GWh local battery system production capacity.

What is Taipower's new energy storage system?

The new energy storage system adds power for renewable energy! In response to international energy transitions and net-zero emission trends, Taipower is actively developing diverse energy solutions.

What is Taipower's energy storage system at Longtan Taoyuan?

Taipower's energy storage system at Longtan, Taoyuan is a key project for the Taiwan government. In the future, when a large amount of offshore wind power is connected to the Taipower system, energy storage systems will play a key role in stabilizing the power grid. Safety is a core element of Fluence's business.

Why are stable energy storage solutions important in Taiwan?

As Taiwan's renewable energy share continues to grow, stable energy storage solutions are becoming increasingly vital to offset fluctuations in solar and wind power generation.
