

# Tallinn Solar Container 200kW

## Overview

---

What configurations make up a 200kva 200kW solar power plant?

The following configurations make up a complete 200kva 200kW solar power plant: Optional solar mounting support, PV combiner boxes, and cables. PVMARS provides a complete turnkey PV energy storage system solution. After we complete production, the system delivered to you can be used immediately after connections are made.

What is the battery capacity of a 200kW solar plant?

The gel battery of this 200kw solar plant is designed with 180pcs 2v1500ah batteries with a total capacity of 540kWh. 2.33V/Cell (-4mV/°C/Cell) Max. Charge Current:225A.

How much does a 200kW solar power plant cost?

200kW solar power plant prices US\$127,611 - Gel battery design. (Valid for 30 days). Note: If you need a quote for lithium battery design, please contact [solar@pvmars.com](mailto:solar@pvmars.com) to obtain it. Below are the product parameters and pictures of the 200kw solar plant. Strong anti-cracking, heat spot protection.

How can pvmars provide a complete 200kW solar power plant solution?

The premise of providing a complete 200kw solar power plant solution requires: You only need to submit load (electrical equipment) information, pictures/drawings of the installation location, output voltage range, and other data. PVMARS's engineering team can provide a complete solar system (off-grid or mini-grid solution).
