PowerX is revolutionizing battery storage with its innovative Battery Tanker project, which transports gigawatt hours of clean electricity across oceans, effectively creating a global power grid. The world's first Battery Tanker connects grids, nations and the planet by transporting gigawatt hours.

LS Electric will deploy a 20MW/90MWh battery energy storage system (BESS) in

Japan after it was awarded the contract through a competitive solicitation process. The Korean electrical equipment and automation systems company announced yesterday (14 April) that it will deploy the large-scale.
