A new transformer manufacturing plant has officially opened in the city of Angren. According to the Ministry of Energy, the opening ceremony took place on August 1. The joint project was implemented by Uzbekistan's state-owned company Regional Electric Networks and China's Holley.

Baku, Azerbaijan - China Electric Power Equipment and Technology Co. (CET) has signed an agreement with Uzbekistan's Energy Ministry to build high-voltage transmission lines and substations in the country. The Chinese company will design, construct, and finance the project, as well as provide.

KYN28A-12 is a relatively common high-voltage switchgear at present, rated voltage is 3.6kV~12kV. The equipped vacuum circuit breaker is in the middle of the switch cabinet, that is, the circuit breaker is located in the middle of the front cabinet of the switchgear, so the lower space can be saved.
