## Overview

---

Are nestout batteries waterproof?

They are rated IP67 for water and dust resistance, meaning they can be submerged in water and are fully sealed against dirt and debris. With a modular design and versatile charging options, NESTOUT batteries are made to power your journey wherever it leads. One of the standout features of NESTOUT batteries is their versatility.

What accessories can I use with a nestout battery?

**BOTTOM TRIPOD MOUNT** - Batteries come with standard  $\frac{1}{4}$  20" tripod mounts on the bottom so you can attach our NESTOUT mini tripod and lights or use your own.  
**MODULAR ACCESSORIES** - Use the battery with the available NESTOUT Accessories like the LAMP-1 lantern and FLASH-1 LED Panel that are custom made to exclusively fit the power banks.

What makes nestout a good battery?

Crafted for extreme conditions and tested to military standards, NESTOUT guarantees durability and safety in the great outdoors. Safeguarded by a six-circuit protection system, our military grade 15000mAh battery protects against temperature changes, short-circuits, overcharge, over-discharge, over-voltage, and overcurrent.

Why should you buy a nestout portable power pack?

Whether you're trekking through wet terrain, enduring dusty conditions on a dirt bike, or engaged in tactical operations, you can trust that your NESTOUT portable power pack will perform reliably. Their compact design makes them easy to carry in a backpack or attach to your gear, ensuring you always have access to power when you need it most.
