

# Uninterruptible power supply can be shipped by air

## Overview

---

If the batteries used in the UPS are subject to transportation regulations, air and sea transport may be restricted. Since policies may differ depending on the airline, be sure to check in advance.

If the batteries used in the UPS are subject to transportation regulations, air and sea transport may be restricted. Since policies may differ depending on the airline, be sure to check in advance.

This letter is in response to your October 21, 2022, letter requesting clarification of the Hazardous Materials Regulations (HMR; 49 CFR Parts 171-180) applicable to an uninterruptible power supply (UPS) and an extended battery module (EBM) that both contain lithium ion batteries. Specifically, you.

Items commonly shipped as hazardous include air bags, air conditioning units, batteries, fertilizer and more. All our employees are trained in handling hazardous materials in compliance with state and federal hazardous material regulations. Make sure you label your hazardous items for shipment. The.

Shipping a UPS (Uninterruptible Power Supply) unit, whether it's a small line-interactive system or a large modular online UPS, involves careful planning and execution. Due to the weight, sensitive electronics, and potential battery hazards, UPS shipping is a specialized logistics task handled by.

May contain uninterruptible power supplies with electrical storage batteries, magnets in speakers and printing ink. May indicate the presence of batteries, CO2 cartridges, and other power devices, gasoline powered saws or generators and space heaters all possibly containing fuel, Liquified.

Specifically, you ask whether the "NONSPILLABLE" mark on the outside of packaging applies to nonspillable batteries shipped separately and also applies to batteries contained in equipment. Additionally, you ask whether an "uninterruptible power supply" (UPS) is considered "equipment" for purposes.

This letter is in response to your October 21, 2022, letter requesting clarification of the Hazardous Materials Regulations (HMR; 49 CFR Parts 171-180) applicable to an uninterruptible power supply (UPS) and an extended battery module (EBM) that

both contain lithium ion batteries. Specifically, you.
