Onyx Solar is the global leading manufacturer of photovoltaic glass for buildings. The company is based in Ávila, Spain, and has offices in the United States and China. Since 2009, we have completed more than 350 projects in 50 countries. Our current yearly production capacity is 2 million sq. ft.

The Vatican's recent tender announcement for a photovoltaic curtain wall installation marks a historic shift toward sustainable architecture in religious institutions. This project combines renewable energy integration with cultural preservation, creating new opportunities for solar technology.

Mullion transom curtain wall system with 50 mm profiles front view. Suitable for all types of buildings (low, mid and high-rise). With its wide variety of profiles this versatile curtain wall system is suitable for all types of buildings. Installation of 3 photovoltaic canopies on the facade with silkscreen on glasses and LEDs •.

Curtain wall systems are non-structural systems for the external walls of buildings. As a global leader in curtain wall system manufacturing, Kawneer engineers a comprehensive range of curtain wall systems available in traditional stick fabrication and unitized options. Stick-build curtain wall.

If you are interested in projecting a futuristic, sophisticated and ecological image, photovoltaic materials will greatly help. The Solar Innova modules of photovoltaic integration technology used in the BIPV installations are multifunctional. That is, in addition to generating electricity, they.

Solar photovoltaic building is a new concept of applying solar power generation. It

is a perfect combination of solar photovoltaic system and modern architecture. The photovoltaic modules are laid on the outer surface of the building structure to provide electricity, and the solar power generation.
