

Victoria PV panel prices

Overview

In Victoria, Australia, the cost of installing solar panels generally ranges from \$4,100 to \$8,430 for a standard residential system, depending on the size and quality of the setup.

In Victoria, Australia, the cost of installing solar panels generally ranges from \$4,100 to \$8,430 for a standard residential system, depending on the size and quality of the setup.

Solar panel cost depends on your roof, how much energy you chew through, and even which brand you end up picking. Let's talk about Melbourne. On average, you'll find that Melbourne solar panel prices for a decent family home usually sit somewhere between \$3,500 and \$9,000 (that's after rebates).

Significant savings: Victorian homeowners can reduce energy bills by up to \$2,200 per year with solar panel systems, with payback periods as short as 3-5 years. Solar Rebates and incentives: Eligible homeowners can access up to \$1,400 in state rebates through the Solar Victoria program, plus.

We aim to be competitive in our prices for the level of quality we deliver. Quality comes at a cost and there is no substitute for it. We have flexible finance options available for our customers with \$0 upfront so you can repay from your savings on your electricity bills. We offer seamless start.

2025 is the ideal time for people in Melbourne, Victoria, to get on board with solar energy! Thanks to sizeable rebates, the falling prices of solar panels, and the rising cost of electricity, you could witness notable reductions in your electricity expenses. Here's a guide on how much you should.

Solar panel rebates plus the option of an interest-free loan are available for eligible Victorian homes. Hot water rebates of up to \$1,000 are available for eligible heat pump and solar hot water products. If you select a locally made product, you could be eligible for a rebate of up to \$1,400.
