Find uninterruptible power supplies.

An uninterruptible power supply, also uninterruptible power source, UPS or battery/flywheel backup, is a continual power system. When a power source or main power fails, the UPS provides emergency power to the load. A UPS provides immediate protection from input power interruptions, by supplying.

An uninterruptible power supply (UPS) is a type of backup battery that will continue to provide electrical power to the electronics that you have plugged into it even if electricity from your home outlets cuts out. Unlike a backup generator, it does not need to power up in order to start generating.
