This directory contains contact information on Energy Services Companies (ESCOs) that have met the Commission's and utility requirements to provide energy supply for residential electricity or natural gas, and other services in New York. Locate offers based on zip code, service type, and service.

For service in New York, we encourage you to shop around through our eBids program (forthcoming), or by contacting individual energy service companies for service information and pricing options. If you choose an energy service company for your electricity or natural gas, they'll ask you for your.

Shopping for a new energy plan?

You've come to the right place. Direct Energy is a New York retail electricity and natural gas supplier that takes the guesswork out of choosing a home energy plan. Enter your ZIP code to see available offers in your area. All you need is a recent utility bill for. Do energy service companies work for O&R?

These energy service companies have met the eligibility requirements established by the New York State Public Service Commission and indicated their intention to serve our NY customers. They don't work for or represent O&R. Remember: It's your energy, your choice. You're under no obligation to switch or choose an energy service company.

What is an energy service company?

Energy service companies are corporations that compete to sell you electricity and natural gas. They must be registered with the New York State Public Service Commission and act solely as the energy supplier—we remain the energy delivery

company.

Why should I Choose an energy service company?

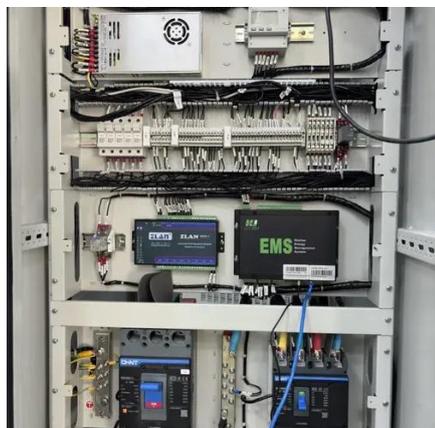

Some of these companies may offer a lower price for energy (these prices can fluctuate), or they may offer green energy from renewable sources like wind, solar, and hydroelectric power. If you choose an energy service company, we will still deliver the electricity and/or natural gas to you.

Do energy suppliers offer discounts?

Some energy suppliers may offer a fixed price or promotional discounts. Some offers include wind, solar, hydroelectric, biomass, and other environmentally friendly power sources. All customers are eligible to enroll with an energy service company. Learn more about ESCOs and the enrollment process. Learn. Learn how to choose an energy supplier.
