

Wholesale 1600 amp switchgear in Burundi

Overview

What is a 1600A switchboard?

A switchboard can be a piece of hardware that makes or breaks your electrical system, so it's important to get the one that's right for you. If you've been shopping around for switchboards, chances are you've come across 1600A switchboards, as they are some of the most common configurations and common modular switchboard designs.

Where does SPS manufacture switchgear & electrical power distribution equipment?

At SPS we manufacture custom switchgear and electrical power distribution equipment for customers across the globe from our state-of-the-art headquarters in Winneconne, Wisconsin USA.

What type of switchgear is available?

Our metal-enclosed switchgear is available from 5kV-38kV, with flexible build/component options, the ability to add on to existing switchgear. Ideal when underground distribution systems must be sectionalized with protected taps. SPS fuse gear available through 35kV in single and three phase configurations, for loop feed and radial circuits.

Can you build a custom switchgear?

We have the ability to conceive, design, engineer and construct entirely custom switchgear products that can be manufactured in multiple quantities or on a one-off basis. Our metal-clad switchgear is available from 5kV-38kV in outdoor non walk-in, indoor, and PDC enclosures.
