

Wholesale of 100kW Folding Containers from the USA

Overview

What is a foldable container?

These foldable containers are made of high-density polyethylene (HDPE), a durable material that will protect your product throughout the duration of the container's life. These foldable containers offer key features that make using our plastic containers simple. Collapsible functionality brings significant savings on inbound freight.

What is a collapsible bulk container?

Collapsible bulk containers, also known as knockdown containers or knockdown bins, are space saving containers perfectly engineered for both durability and longevity. These foldable containers are made of high-density polyethylene (HDPE), a durable material that will protect your product throughout the duration of the container's life.

Where can I buy collapsible containers & pallet sets?

As a leading packaging solutions company, Green Processing Company is committed to stocking brand new products, including thousands of collapsible containers and pallet sets. The new products are in stock in Windsor, ON and Laredo, TX. We can work with you to make custom containers with the specification of your need.

What are duragreen® collapsible bulk containers?

DuraGreen® collapsible bulk containers are space-saving containers engineered for durability and longevity. These containers are made of high-density polyethylene (HDPE), a durable material that will protect your products throughout the duration of the container's life.
