

World New Energy Storage

World New Energy Storage

[Highlights of the global energy transition in 2025 , Ember](#)

The rise of "electrotech" - solar, wind, batteries and electrified transport, heating and industry - became the dominant engine of global energy growth, led by China's ...

Energy Storage Technologies News

Acciona Energia, the biggest global operator exclusively in renewable energies, received the first ever prototype certificate for a grid-scale energy storage solution by DNV GL, ...

[Global Energy Storage Growth Upheld by New Markets](#)

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, ...

- ✓ 100KWH/215KWH
- ✓ LIQUID/AIR COOLING
- ✓ IP54/IP55
- ✓ BATTERY 6000 CYCLES

[CO2 Batteries That Store Grid Energy Take Off Globally](#)

These innovative CO2 batteries from Energy Dome promise long-duration energy storage for the grid, and reliable 24/7 clean power for data centers.

[Energy storage: 5 trends to watch in 2025](#) [_ Wood Mackenzie](#)

How will lithium-ion and alternative technologies fare in the global long-duration energy storage (LDES) revolution? To read our view on this and more, read the full report.

10 cutting-edge innovations redefining energy storage solutions

Here are ten notable innovations taking place across different energy storage segments, as highlighted in GlobalData's Emerging Energy Storage Technologies report.

Hithium unveils the world's first 8-hour-native energy storage ...

Hithium unveiled the world's first eight-hour native battery energy storage solution, the ?Power8 6.9MW/55.2MWh, at Eco-Day. Built on an eight-hour long-duration energy ...

[Energy Storage News , Today's latest by Renewables Now](#)

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy ...

Scientists Are Turning the Earth Beneath Our Feet Into a Big Battery

A new technology known as Geochemical Energy Storage (GES) could provide months-long storage for renewable energy, increasing grid reliability.

Global news, analysis and opinion on energy storage innovation ...

We need to think more deeply about thermal energy storage as a pathway to industrial decarbonisation and managing electricity costs, writes Pasquale Romano, CEO of Redoxblox.
